## **1. INTRODUCTION**

### **STATISTICS**

This document reports the details of 40 individuals, of which 21 are male and 19 are female. Of the 15 individuals with recorded birth and death dates, the average lifespan was 60.1 years. Of these, 8 males averaged 57.6 years, and 7 females averaged 62.9 years.

The longest living male was [James Maris](#), who died aged 93. The longest living female was [Florence Beatrice Gutteridge](#), who died aged 86.

There are 13 families reported. 9 of these families are reported as having children, with an average of 3 children per family.

### **THE NARRATIVE SECTIONS**

The "Direct Relations" section reports the details of individuals who have a direct family connection to [George Gutteridge](#). The section is broken into sub-sections for each generation, within which the individuals are listed in order of closeness of relationship. The sequence numbers are used throughout the document to cross-reference back to the detailed entry of an individual.

With a narrative section, each generation is shown as a separate subsection, within which the individuals are listed in order of the closeness of their relationship to [George Gutteridge](#).

### **FAMILY TREES SECTION**

Each family tree shows the reported children, parents, grandparents and great-grandparents of a family group. In order to reduce redundancy, any family group which is wholly included within another family tree may not be reported separately.

Above each of the great-grandparent boxes (top row), a continuation family tree reference number is shown if the great-grandparent is recorded as a child in the continuation tree. A continuation reference number is also shown to the left of a grandparent or parent box if that individual has siblings reported in the continuation tree; and beneath a child box (bottom row) if that individual has children reported in the continuation tree.
